

17 July 2017

Dear Parents,

As part of our History studies in Term 3 we are creating a **Kindergarten Class Museum**. This is a very exciting project for the students. We require parent support to make it successful.

We need you to find a **selection of photos of your child/children** which demonstrate how they have grown and changed over the first five years of their life. Photos of birthdays, holidays, celebrations and other significant family events and personal milestones would be suitable. For example: Easter, Christmas, first loose tooth, etc.

It would also be wonderful to have any **historical photos of each child's family**, especially photos from the olden days of grandparents and even great grandparents.

If you have some **historical items or artefacts**, please send them to school or take a photo of them if they are too precious to handle. For example: old toys, statues, medals, artwork, old household items, etc. **Please clearly label any items that you send to school.**

News items could also be based around this unit. For example: *"My Nana comes from Italy. She gives me lots of cuddles. I love going to her house in Sydney. She is 72 years old."*

To culminate our unit we are going on an excursion to **The National Museum**.

Please clearly label any items that you send to school.

We really need your assistance with this unit of work to ensure that the children develop a deep understanding of their own personal history.

Once you have sent in items please find some more and send them in throughout the term.

With many thanks,

Louise Egli and Louisa Vance
